Immediate Release

## **Announces New Vice- President of Saskatchewan Operations**

**August 4, 2016 Humboldt, SK.**– Prairie Agricultural Machinery Institute (PAMI) is proud to announce and welcome David Yee as Vice President of Saskatchewan Operations. David will be responsible for the leadership of the Saskatchewan Division’s Business Development, strategic direction and operations of our facilities in Humboldt.

David comes to PAMI from Mitsubishi Hitachi Power Systems and is well-known in the business and manufacturing community, spending the past 14 years with Saskatchewan manufacturers in the agricultural and energy sectors. Within these industries he has held senior sales and operational positions where he was instrumental in increasing market share and operational efficiencies. David has also held an international portfolio of industrial design assignments.

David has a proven record of facilitating long term relationships with customers and the business community. He has a Saskatchewan industry reputation for integrity and partnership with manufacturing advocacy groups, government agencies and local customers and vendors. David and his wife Chris are active community members volunteering in numerous capacities.

David Gullacher, PAMI CEO, states “David Yee has deep roots in Saskatchewan and the prairies and a passion for agriculture and its machinery. He brings strong operation and business development skills and experience to this role.”

PAMI's deepest appreciation goes to James Wassermann who has retired as VP of Saskatchewan Operations after 40 years of dedicated service.

PAMI is an ISO 9001:2008-registered and ISO/IEC 17025:2005-accredited applied research, development, and testing organization serving agriculture and industry in Western Canada and beyond.

PAMI's diversified engineering expertise has direct application for agriculture, transportation, military, aeronautics, forestry, and mining. Services include: design, development, fabrication and evaluation of vehicles, machinery and components as well as value-added process reviews, pilot plant design, and optimization.

PAMI's operations, highly trained, and experienced professional and technical staff are located in Humboldt and Saskatoon, Saskatchewan and Portage la Prairie and Winnipeg, Manitoba.
